EDUCATION

Vellore Institute of Technology

August 2023 – October 2027

B.Tech in Computer Science and Engineering (Specialization in Cloud Computing and Automation)

SKILL SET

Programming Languages: Python, Java

Databases: MySQL (SQL)

Frameworks & Cloud: GitHub, AWS

EXPERIENCE

Collabify.ai | Full-Stack Developer and AI Engineer (Remote)

Dec'24 – Dec'25

-Built and deployed a full-stack platform (MERN Stack, Node.js, React.js) connecting cottage-level industries with social media creators for product promotion. Also created various AI/ML tools for both industrial owners and creators.

Weatherford International | R&D Engineer (AI/ML) Intern (On-Site)

June'26 – Aug'26

-Developed a 2-way ML model (Python, Scikit-learn) to specify product design requirements and predict exerted forces, achieving 98.78% accuracy over a million-row dataset.

PROJECTS

Oral Cancer MedTech

Feb 2026 | tinyurl.com/OralCancerProj

- React Native (Expo), Django REST Framework, TensorFlow Lite, Supabase (PostgreSQL, Auth).
- Built a mobile app tackling delayed oral-lesion screening: on-device TensorFlow Lite model gives instant AI risk assessment from a photo, with diagnostic reports and locally-stored scan history for privacy.

VitalVision

Feb 2025 | tinyurl.com/VitalVisionProj

- React, Python (Scikit-learn/TensorFlow/PyTorch), Firebase.
- Built an AI healthcare platform to fix slow, mismatched triage: a medical chatbot plus an ML prioritization engine that maps patients to doctors by pincode and severity, with secure Firebase auth and real-time sync.

Serenity – AI Therapeutic Companion

Feb 2026 | tinyurl.com/therapybot

- React, TypeScript, FastAPI, SenseVoice, face-api.js, Gemini API, Deepgram.
- Built a privacy-first multimodal therapist that fuses real-time voice and facial emotion signals (60/40 weighted) to catch what text-only chatbots miss – flagging incongruence and crisis language via Gemini and Deepgram.

CERTIFICATIONS

MERN Full Stack Certification Program – Ethnus (Score: 92/100)

tinyurl.com/MERNPost

Cloud Computing – NPTEL-Swayam

tinyurl.com/clouddist

The Bits and Bytes of Computer Networking – Coursera

tinyurl.com/CourseLinkedn

ACHIEVEMENTS & EXTRACURRICULAR

Technical Lead, Matrix Club – VIT

July'25 – July'26

Health Hackathon Finalist – 2025 & 2026

tinyurl.com/HHack26

Hacktoberfest Completed – 2024 & 2025

tinyurl.com/HackFest26
